

## DID YOU KNOW?

Drowning is the **#1** cause of injury-related death for children ages 1–4.

By your side,<sup>®</sup> **for water safety.**

**64%** of all North Texas drownings of a child occurred with an adult nearby. A child should **NEVER** be alone in or around water. Make sure an adult is **ALWAYS** watching.

**ALWAYS** have your child wear a **COAST-GUARD-APPROVED** life jacket that correctly fits their weight. Non-swimmers should **ALWAYS** wear a life jacket around water.

Have your child's swimming skills **TESTED** and **ENROLL** them in swim lessons.

**BEFORE** you swim, be sure to have the right equipment nearby:

Life Preserver or Pool Noodle

Pool Fence

Mobile Phone

## Play it safe every time you swim.

Find five situations that make this pool unsafe and draw an “X” through them.

Answers: Boy diving, adult on the phone; lightning cloud; girl in floaties; boy falling into the pool chasing ball
